English, Mandarin, Cantonese

Experience

Product Designer | Jefit

Full-time • Mar 2024 – Present

- Owned end-to-end product design across Android, iOS, web, and wearables for a 13M+ user fitness platform.
- Designed the 0→1 AI-powered Adaptive Plan: the signals the model adapts to, plus trust controls that keep users in control — manual override, transparent reasoning, injury-safe swaps. Drove +42% adoption, +28% D30 retention, and a 14% soft-paywall CVR (7× our benchmark).
- Conceived and shipped Year in Review 2025 — +78% revenue, +124% shares, and +33% views YoY.
- Architected a cross-platform design system — 120+ components, 100% token-bound, WCAG 2.2 AA — via a custom multi-agent AI pipeline (builder + evaluator) automating component build and QA.

UI/UX Designer | Aware.ai

Internship • Dec 2023 – Mar 2024

- Designed a rewards feature for a mental-health & wellness app, validated through 5-user usability testing — lifting task completion 40%.
- Delivered end-to-end user flows and wireframes for privacy-sensitive health & wellness journeys.

Product Designer | Whatnot

Co-op • Oct – Dec 2023

- Researched and proposed an end-to-end offsite experience concept for top creators, validated through usability testing with positive feedback.
- Designed mobile-to-TV live-event interface concepts and a community-first marketplace direction.

UX Designer | Hewlett Packard Enterprise

Internship • May – Aug 2023

- Designed a modular chart-customization system with the existing Storybook component library, driving a 30% lift in feature adoption in usability testing.
- Facilitated 4 design critique sessions, surfacing 40+ actionable UI improvements across the product.
- Delivered research-backed design recommendations to 50+ stakeholders, aligning UI strategy with business goals.
